This Portfolio is brought to you for free and open access by Duquesne Scholarship Collection. It has been accepted for inclusion in Honors College Portfolios by an authorized administrator of Duquesne Scholarship Collection.

As a student in the four-year Registered Nurse-Bachelor of Science in Nursing (RN-BSN) program, you are immersed in an education beyond the vital scientific facts and nursing skills. Throughout the undergraduate studies, one is challenged to rise to the skills of thorough assessments, critical thinking, and evaluations. Not only are you prepared for the clinical setting, you are given the tools to go above and beyond with your career. Your time and efforts as a nursing student creates a pathway to success and leadership.

A major goal in nursing is to practice cultural competence and provide holistic care to those around you. It is also a time to allow your creativity and dedication to come forward. This portfolio illustrates the growth and perseverance throughout the RN-BSN curriculum. These hand-picked examples showcase taking a deeper look within you. It was a time of self-reflection and discovering what is important to you and what you wish to stand for and support in life. One of the major principles we must honor as a nurse is advocacy. In your journey, you have the ability, power, and responsibility to others who are less fortunate and need their voices to be heard.
