Spirochete

By Felicia Bedford

D.U.Quark 2022. Volume 7 (Issue 1) pg. 26

Published November 25, 2022

Staff Article

Let methylene blue consume the
micro bacteria on my slide. Let
autoclave roar, and incubator fill
With the humidity of 37 degrees C.
Let white coats come clean.

Let curious minds devour
the spirochete formation.
Let black ink fill a blank page
With various procedural protocols.
Let white coats come clean.

Let professor's lectures ingest
The entirety of Friday nights.
Let hearts recover from the
turmoil With lab practicals on
minds. Let white coats come clean.

Let goggles imprint marks upon face.
Let water bottles stay outside the door
Where they are sure to be forgotten.
Let the white coats come clean.
